MAG-BASE-SW SCORPION MOBILE ANTENNA MAGNETIC MOBILE MOUNT

The very attractive Scorpion magnetic mobile mount is an option to the normal swivel mount base that comes standard with the Scorpion range of antennas. The MAG-MOUNT-SW comes complete with an swivel adaptor that will fit any South African manufactured whip of similar design.

The unit has very low wind resistance and has a full rubber boot to protect the paintwork on the vehicle.

The magnet is of sufficient strength to prevent the antenna from lifting off the vehicle, even at high speeds.

The feed point of the antenna is plastic injection moulded to prevent any water on the feed point.

RFi Order Code	Cable Length	Adaptor Type	Magnet Dia.	Fit Up To Plate	Adjustment
MAGBASE-SW	5 Met. RG58U	Swivel Type	80mm	Any Size	180 Deg.
