TRACER150-01 (148 – 152 MHz.) ANIMAL TRACKING ANTENNA

The TRACER150-01 antenna is designed to be rugged, light weight and to give very good directional properties for the purposes of animal or vehicle tracking purposes. The front and back elements are filled with poly urethane foam to resist bending of the elements when moving through thick bush but at the same time keeping the weight low. The antenna operates in the 148 to 152MHz. band but can be scaled to unique frequencies if the volumes justify the engineering efforts to do so.

RFi Order Code	FREQ.	SIZE	WEIGHT	IMP.	Gain (Fwd./ F to B)	TERMINATION
